Stefan Quest
Developer

ABOUT **ME:**

An avid fan of self-improvement, both incremental and exponential. I'm a former vocal artist who is transitioning into software development. Some of my work can be seen at github.com/Quest1mc.
My commercial freelance/ Agency work is at https://www.proactiefmarketing.nl
I play a decent game of ping pong and I'm a prolific cook and traveler. Whether it's music or software the passion is the same: to create something amazing. I'm very good at pulling teams together.
My hobbies are swimming, cooking, obstacle courses, martial arts, song writing, ping pong and travelling.
